### **Green Tree at Post Road Opens Samara Memory Care**

INDIANAPOLIS, Indiana – Green Tree at Post Road assisted living center is celebrating the grand opening of 42 units specializing in care for senior adults with Alzheimer’s, dementia and memory loss. Earlier this month, associates began moving residents into the \$4.5 million addition.

The memory care facility, named Samara Memory Care, provides a high staff to resident ratio, which allows for a very individualized approach that focuses on the resident’s abilities. Staff members help each resident achieve daily successes based on his/her abilities.

For example, a resident may love to bake but be unable to follow a recipe because of memory loss. Staff members coach the resident through the steps of baking cookies, focusing on tasks the resident can still accomplish.

“Samara provides a very different alternative for family members searching for a home for those suffering from memory loss,” said Todd Spittal, co-owner and president of Provision Living, which is the operator of Green Tree at Post Road. “We’re passionate about identifying the unique interests and abilities of each person, then customizing our

environment to ensure a gracious, comforting home for residents that is focused on security, but is not restrictive.”

As a result of the expansion, the facility is employing an additional 20 full-time individuals, including professional nurses, therapists and direct care staff.

More information on Samara Memory Care facilities is available at [www.samaramemorycare.com](http://www.samaramemorycare.com).

Green Tree at Post Road is a 100-unit assisted living community, located at 8800 Spoon Drive in Indianapolis. The facility is operated by Provision Living, LLC, a premier regional operator and investor in senior housing properties, specifically focusing on independent living, assisted living and assisted living based dementia services. The company is based in St. Louis with operations in five states, representing more than 800 senior living units and 400 employees.
